Coordinated Shot

You can maneuver a foe to be in the direct line of an ally's fire.
When you are threatening a foe with a melee weapon, any ally that has line of sight to that foe without you granting that foe cover gains a +1 bonus to ranged attack rolls against that foe.

Deadly Aim

Your can strike your enemies' weak points and deal more damage.
When you take the attack or full attack action with weapons (including a solarian's solar manifestation, but not spells or other special abilities of any kind), you can take a -2 penalty to your attack rolls. If you do, those attacks deal an additional 0 (minimum 1).

Quick Draw

You can draw weapons faster than most.
You can draw a weapon as a swift action. Additionally, when making an attack using a thrown weapon as an attack or full attack action, you can draw a weapon as part of the action of making a thrown attack with it. You can draw a hidden weapon (see Sleight of Hand on page 146) as a move action.
Normal: You can draw a weapon as a move action, or (if your base attack bonus is +1 or higher) as part of a move action, and you can draw a hidden weapon as a standard action.

Weapon Focus

You have increased training in a particular weapon type, making it easier to hit your target.
Choose one weapon type (small arms, longarms, heavy weapons, etc.). You gain a +1 bonus to attack rolls with that weapon type. If your base attack bonus is at least 3 lower than your character level (or your mechanic's class level, if you are a drone), you gain a +2 bonus instead.
